NOTES

- EA48 platform extends 10" above top of liftgate mainframe when closed.
- G2-54-7542 models are mid-size pickup applications and are sold with an included light kit and rear camera and sensor bar. Not compatible with all options. Contact factory for more information

IMPORTANT

- Side BlindZone Sensor Bracket, Rear Camera and Sensor Bars are only available for some newer model pickups. Contact factory for more information.
- 12V Light Relay Kit will eliminate false trailer detection on some trucks by reducing the amount of electrical load on the vehicle's factory wiring. Visit tommygate.com or contact customer service for more details and applications.
- Galvanizing Option may increase production time and is not available for Steel Treadplate platforms.
